

Hair Drug Testing

Please find below a list of the different Hair Drug test panels available:

- **Standard Testing – Hair 5 Panel**

Amphetamine (Methamphetamine & Ecstasy), Cocaine, Marijuana, Opiates (Codeine, Morphine & 6-MAM Heroin Metabolite) and Phencyclidine (PCP).

These five drug classes are mandated for testing by the U.S. Federal Government.

- **Extended Testing – Extended Opiates Panel** (optional)

The laboratory offers an Extended Opiates panel including Oxycodone, Oxymorphone, Hydrocodone and Hydromorphone.

Please make sure to select the respective option when ordering the test.
